

# 4G Communications Platform

WHY IT'S TIME TO SWITCH GEARS TO  
4G RIGHT NOW

**Stay in the Driver's Seat with  
a Longer Service Life**

**Honeywell**

# 4G

Today's major wireless carriers are keeping pace with the explosion in demand for 4G.

**Are you?**

## Communications Platform

**Longer service life, faster speed and better coverage**

▶ With more mobile devices demanding the speed of 4G, carriers continue to adjust bandwidth to meet consumer needs. The result can already be felt in existing 2G networks, and we believe it can happen again over time with 3G.

Honeywell's advanced GSM communications platform provides seamless, reliable coverage by ensuring it can speak to the broadest and fastest standards-based 4G technology: the HSPA+ network. When it comes to account longevity, faster speed and better coverage, you're in the driver's seat with Honeywell.

• **Longer Service Life:**  
Carriers will maximize the lifetime of 4G (faster) networks

• **Faster speed with better coverage:**  
3X faster than the best 3G speed performance with Honeywell Total Remote Services

• **Complete family of radios:**  
VISTA®, LYNX and other control products

## Account Longevity

It pays to embrace 4G for a longer service life. 4G provides the network efficiencies carriers require to support the demand of today's mobile users. As demand grows, carriers can prioritize the use of 4G over slower technology—improving the radio's service life in the field. Our 4G radios automatically adjust to the best signal in the area—whether 4G, 3G or 2G.

## Faster Speed and Better Coverage

Honeywell's 4G HSPA+ is three times faster than 3G. For carriers, it provides an efficient use of bandwidth to support the growth of services on their networks, leading to a longer service life for the Honeywell 4G platform. Honeywell's 4G HSPA+ provides seamless, reliable coverage by taking advantage of the largest available 4G network.

## Better Performance Today and Tomorrow

Honeywell's platform uses the most cost-effective technology, providing speeds three times faster than 3G on the largest 4G network available today. 4G is a perfect fit for Honeywell Total Connect™ Remote Services—today and tomorrow.
